Email: rajkumargrd56@gmail.com

Mobile: +91 8789429404

SKILLS

Languages: C++, Java, Python

Web Development: HTML5, JavaScript, React.js, Redux, Tailwind CSS, Bootstrap, Node.js, Express.js, REST API's

Libraries & Tools: Git & Github, Docker, K8S, AWS, Terraform, Redis, CI/CD, Postman, React Hook Form, Axios

Core CS Skills: DBMS, DSA, OOP, Computer Network, Operating System

Databases: MongoDB, MySQL

Soft Skills: Problem-Solving, Quick Learner

PROJECTS

Talksy - WebSocket based Real Time Chat Application | [Github](#) | [Live Link](#)

Jan'26 – Feb'26

- Developed a real-time messaging system supporting instant communication and **file sharing between devices connected on the same local network**.
- Implemented secure **end-to-end encryption** chats to ensure private and protected communication between users, preventing unauthorized access to messages during transmission.
- Designed a **room-based chat** architecture allowing users to create, join and manage both private and public chat rooms For organized real-time conversations.
- Added advanced messaging features such as message reactions and dynamic message updates (edit and delete functionality) to enhance user interaction.
- Tech Stack:** MERN, WebSocket, Lucid-React, Multer

CodeNexus - Online Coding Practice & Evaluation | [Github](#) | [Live Link](#)

Nov'25 – Dec'25

- Developed a scalable full-stack coding platform (MERN) supporting 3 programming languages with real-time execution via **Judge0 API**, integrating Redis caching to optimize repeated API/database calls and improve backend efficiency.
- Built an AI-powered debugging assistant using **Google Gemini API** to analyze compiler/runtime errors and provide contextual fix suggestions, enhancing user problem-solving workflow.
- Integrated **Monaco Code Editor** to deliver a VS Code like experience with syntax highlighting, auto-completion and real-time editing, while implementing secure **JWT-based authentication** with OTP email verification(Brevo).
- Optimized performance, responsiveness, and technical **SEO**, achieving Lighthouse scores of 100(Performance and SEO) And 96 (Best Practices), with a fully responsive UI across mobile, tablet and desktop using Tailwind CSS.
- Tech Stack:** MERN, Redis, Cloudinary, Judge0 API, Google Gemini API, OAuth 2.0, JWT, Zod

GST Invoice Generator | [Github](#) | [Live Link](#)

Jul' 25 - Aug' 25

- Built a responsive GST billing application that enables users to generate GST-compliant invoices with automated CGST, SGST and IGST calculation.
- Implemented real-time invoice creation with dynamic item management, auto-calculated totals and download PDF invoices.
- Integrated MongoDB to store shop details, transport ID with optimized schema design for fast retrieval.
- Used **html2canvas** to convert invoice UI into image and **jsPDF** to generate and download compressed PDF invoices efficiently.
- Tech Stack:** React.js, Bootstrap, Node.js, MongoDB, html2canvas, jsPDF

TRAINING

LPU - Data Structures and Algorithm | [Certificate](#)

Jun' 25 - Jul' 25

- Completed an intensive DSA skill development program conducted by the Center of Professional Enhancement, Lovely Professional University.
- Implemented and practiced code data structures and algorithms using efficient coding techniques.
- Achieved Grade O, demonstrating strong problem-solving and algorithmic skills.

CERTIFICATES

Privacy and Security in Online Social Media | [NPTEL](#)

Oct' 25

Cloud Computing | [NPTEL](#)

Apr' 25

Coding Ninjas Premier League | [Coding Ninjas](#)

May 24

ACHIEVEMENTS

- Leetcode Contest Rating: 1653
- Solved 450+ DSA problems on [Leetcode](#) and [GeeksforGeeks](#).
- Secured AIR-7 in Coding Ninjas Premier League coding completion.

Feb' 26
